GARAGE SALE

Preparation for Spring Flooding!

The following is the mitigative actions that the Government of Saskatchewan and the Water Security Agency suggest residents undertake:

- Shovel or remove snow from around your home and move it to the outer perimeter of your property
- Clear channels in the ice/snow to allow water to drain away more effectively from your home
- Ensure downspouts are extended so they discharge at least 2 metres from your home to avoid it draining back towards your foundation.
- Check to make sure your sump pump is working. If you do not have one, consider installing one.
- Make sure you have a Sewer Backwater Valve to protect against sewer backup.
- Keep basement sewer caps in place.
- Check your basement often.

Council Updates

Meetings: March Meetings are the 9th and the 23rd. Meetings are open to the public, but if one wants to speak to or address Council, this needs to be set up 3 days prior to the meeting and added to the Agenda.
